ADELAIDE: Flag Building, Grenfell Street
WELLINGTON, N.Z. (Box 533, G.P.O.)

Dear

We have pleasure in forwarding our Illustrated Catalogue, which cancels all previous Catalogues sent by us; but as it is almost impossible to illustrate all the goods we manufacture and stock, we shall esteem it a favour if you can make it convenient to call and inspect our Showrooms. Our premises are most up-to-date and replete with the latest ideas from England.

Our discount is

25 % FREE SYDNEY

Yours faithfully,

per pro **WALKER & HALL,**

ALBERT E. NASH,

Manager for Australasia.

Manager for Australasia.

ELECTRO-PLATE, CUTLERY & STERLING SILVER

Cable { "BINGHAM" SHEFFIELD } ABC Code used
Address: { "FLAG," SYDNEY } (5th Edition)

To prevent disappointment and loss caused by goods proving inferior and turning yellow (which it is impossible for ours to do if kept clean), please note that our FLAG BRAND is impressed upon each article.

Protected by Perpetual Injunction in
Chancery, Dec. 9th, 1895

Motto:
SPERATUM ET COMPLETUM
(Hope and Realise)

Visitors to our Plating Works will see that after the articles are placed in the vats they are not removed until they have received their full quantity of Silver; the use of the words Triple and Quadruple Plate is therefore a clever fiction.

In our INSTANTANEOUS PLATE CLEANER there is no Mercury used, which is very injurious to either Electroplate or Silver.

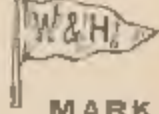

AS WHOLESALE MANUFACTURERS we do not issue gilt-edged, elaborate, expensive catalogues, nor do we spend huge sums in advertisements: we prefer to put extra value into our goods. This has proved to be of much greater and more lasting value to us. We therefore place before you this unassuming Catalogue of a few of our manufactures in full confidence that it will be of great convenience and assistance to buyers, enabling dealers to keep pace with the times, and to compete successfully with the far keener business pressure of the day. We have combined in the production of our goods the best hand labour with the closest attention to the best methods and machinery.

Our Trade Mark as above has so far been our aid in substantially causing to be recognised the value of the goods that have, since our present senior partner entered the works, raised the number of our employees (including branches and outworkers) to over 2,000.

This fact causes us to state that so far as WALKER & HALL are concerned "Trade follows the Flag"—*Speratum et Completum* (Hope and Realise) being added as our Motto, points out that, while we "hope," we must use every effort to "realise" our hopes.

There is a too common fallacy nowadays, especially in the purchasing of Electro-Plate, of entrusting orders to those who, while ignorant of the Trade, profess to sell at a cheap rate, goods which prove on wear to be very dearly bought; it is therefore natural that we should endeavour to "drive home" to your mind the reputation which our "Flag" brand enjoys.

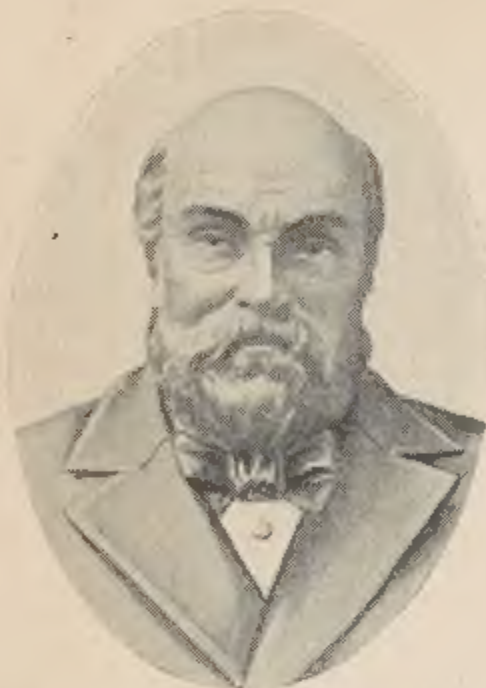

Our Mr. WALKER was the first to establish Electro-Plating, both as an art and a trade, in Sheffield, having assisted Mr. WRIGHT, a Surgeon of Attercliffe (a suburb then, but now a part of Sheffield), who became, with Mr. WALKER's assistance, the fortunate inventor of Electro-Plating. Mr. WALKER, having been granted a Royalty, was eventually joined by Mr. HENRY HALL. Thus the Pioneer Firm of WALKER & HALL, Electro-Platers and Manufacturers, was founded. The Business is now carried on by Mr. HALL's nephew, Colonel Sir JOHN E. BINGHAM, Bart., V.D., J.P., and his son, Mr. ALBERT EDWARD BINGHAM.

Those who have not previously done business with us will please note that we Guarantee all Goods Stamped with Our Name or  and hold ourselves responsible for them.

Our present Plating Vats contain 41,000 pints of Gold and Silver Solution

The late Mr. HENRY HALL

JUNIOR PARTNER

MR. ALBERT E. BINGHAM

In these days of advertisement we believe it wise to reprint the following paragraph from the "Sheffield Independent" to show how it is that Sheffield is still renowned for her SHEFFIELD PLATE :

At Messrs. WALKER & HALL'S Works

EXTRACT FROM THE "SHEFFIELD INDEPENDENT."
"Yesterday afternoon was spent in exploring the works of Messrs. WALKER & HALL, the Silversmiths, who have helped so much to make the name of Sheffield famous, not only through being the pioneers in the great art industry with which their name is associated—the electro-deposition of gold and silver—but also by the general excellence of their goods, which have gone a great way in making the name of Sheffield almost a guarantee for quality in any market in the world."

GRANTED OLD AGE PENSIONS TO WORKPEOPLE, JANUARY 1st, 1892

The following extract from *The Times* states the details of this scheme:—"Messrs. WALKER & HALL, electro-platers, of Sheffield, have just brought forward a scheme which will secure provision for their employees after a certain period of service. On Monday evening the workpeople employed by the firm assembled in the yard of the manufactory, and were addressed by Colonel J. E. BINGHAM, J.P., who explained the scheme. It is to be under the management of a committee, consisting of eight persons, four to be appointed by the heads of the firm and four by the workpeople. In order to receive a benefit, a man or woman must have been in the employ of the firm for twenty-one years, without interruption, and must either be permanently incapacitated or have attained the age of sixty-five. After twenty-one years' service the men will receive 8s 6d and the women 4s 3d; after twenty-five years' service, 10s and 5s; after thirty years' service, 15s and 7s 6d; and after forty years' service, 17s 6d and 8s 9d.

"The workpeople, it may be mentioned, will not be called upon to contribute to this scheme in any way. Fifty-three persons employed by the firm are already entitled to benefit under the scheme, and it was stated by one of the partners that an employee who entered the service of the firm at fourteen would be eligible at the age of thirty-five. The workpeople present spoke very favourably of the scheme."

BEST SHEFFIELD

MANUFACTURE

"Sonora" Spoons & Forks

Trade Mark: SONORA

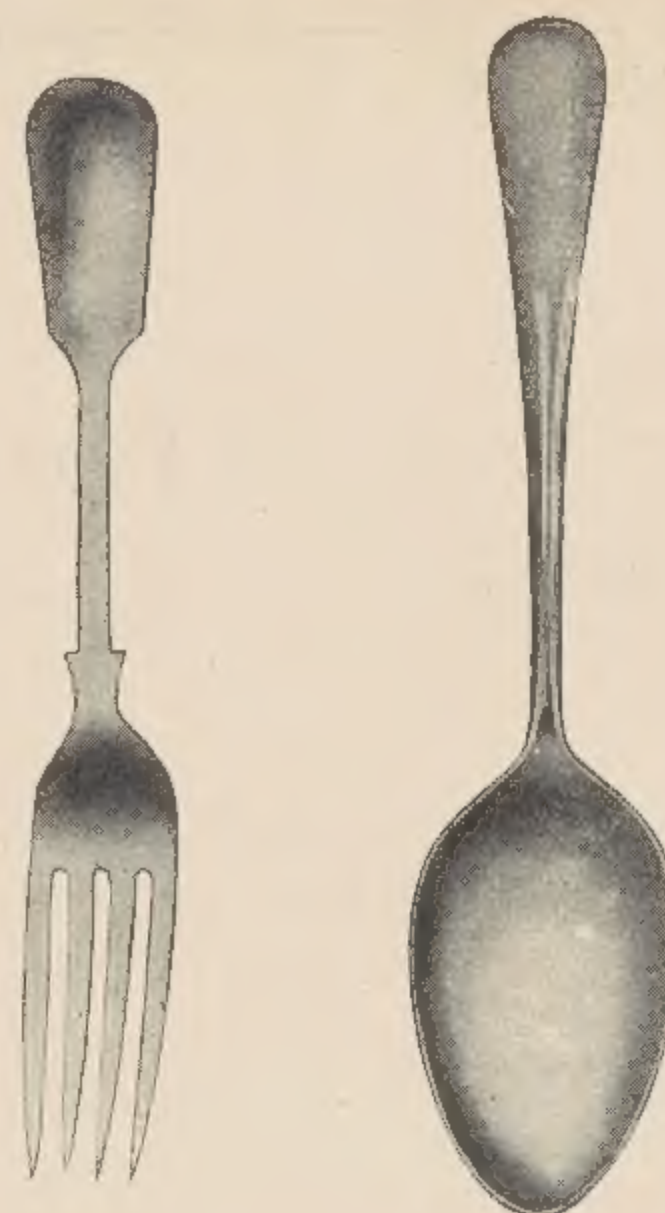

WALKER & HALL

as sole manufacturers of the "SONORA" Spoons and Forks, etc., beg respectfully to bring their prices before the notice of their friends.

They also wish to draw their close attention to this new and beautiful metal, which, in appearance, is the nearest to real silver yet discovered, and from which it can scarcely be distinguished. It is very hard and strong, and, like sterling silver, always retains its original whiteness and purity of colour throughout. It is far superior to the ordinary nickel silver, being much whiter and more brilliant; it is also harder, and will therefore wear for a greater number of years, even as long as sterling silver itself.

Walker & Hall will give their most careful attention to all orders with which they are favoured, and see that every article manufactured by them is finished in the best possible manner.

Please see that every article bears the Trade Mark thus: SONORA without which none is genuine.

"ORUBA"

Spoons & Forks

ORUBA is splendid value, high-class workmanship, very durable, and of good colour throughout—*vide* sample Tea Spoon sent on application,—yet there is nothing so valuable as an imitation of silver itself, as our Sonora Spoons and Forks, on this page.

PLEASE READ THE FOLLOWING:

EXTRACT FROM THE "IRONMONGER."

July 29th, 1893.

"At the Sheffield City Police Court, on Monday, Walker and Hall prosecuted two 'labourers for theft. Unintentionally, no doubt, these men placed the prosecutors 'under an obligation to them by giving the firm what must be regarded as a valuable 'testimonial to the excellence of their metal. This alloy is a speciality of the firm, 'being a good imitation of silver, yet much cheaper, and they turn out large quantities 'of forks and spoons made up in it. It was proved that the defendants, while working 'at Walker and Hall's premises, carried off three ingots in the belief that it was genuine 'silver, and with the intention of offering it for sale as such. Before attempting to 'sell the metal, however, they submitted it to two practical silversmiths, with whom 'it apparently passed muster as the real article, and the thieves then offered it to a 'silver manufacturer at 2s. 6d. per oz., who detected the counterfeit character of the 'metal, and, suspecting the men, placed the matter in the hands of the police. The 'defendants pleaded guilty, and were sent to prison for three weeks."

THE ABOVE IS A PRACTICAL PROOF.

AUSTRALASIAN INTER-VARSITY RIFLE CHALLENGE SHIELD

Manufactured by WALKER & HALL

WALKER & HALL'S INSTANTANEOUS PLATE CLEANER

AS USED AT THEIR MANUFACTORY, SHEFFIELD

Our hundreds of work women will use no other.

Plate cleaned with this liquid requires only minutes, where formerly it took hours, and what is more **IT KEEPS THE HANDS CLEAN.**

This liquid should be spread over the article, and after a short time rubbed off with a soft leather or cloth. It is six times as rapid as plate powder and does not dirty the hands. A housemaid can attend to the front door at once.

TRADE

MARK

INSTANTANEOUS PLATE CLEANER AND TIME SAVER
